Headline

Emergency Alert System Test

Description

This is a statewide test of the Ohio emergency alert system, originating from the state
emergency operations center in Columbus. This is only a test. The Ohio emergency alert system
has been designed to provide the public with timely warnings and emergency information. Had
this been an actual emergency, you would have received instructions and information related to
that emergency over this and other stations in your area. This concludes this test of the Ohio
emergency alert system.

Instructions

No action is needed. This is only a test.
